

# LOGICAL INTELLIGENCE

NUMBER  
SMART

## MEANING:

Student has the ability to use reason, logic and numbers. These learners think conceptually in logical and numerical patterns making connections between pieces of information. Always curious about the world around them, these learners ask lots of questions and like to do experiments.

## SKILLS:

problem solving, classifying and categorizing information, working with abstract concepts to figure out relationships, doing controlled experiments, questioning and wondering about natural events, performing complex mathematical calculations, working with geometric shapes

## POSSIBLE CAREERS:

Scientists, engineers, computer programmers, researchers, accountants, mathematicians, bookkeeper, analyst, banker, investment broker, lawyer, biologist, chemist, microbiologist, pharmacist, physician, chess player, economist, city planner, inventor, mechanic, programmer, researcher, tax accountant
