

Fill in the tails of Halley's comet at the various points in its orbit around the sun. Then, circle the position at which the tail would be the longest!

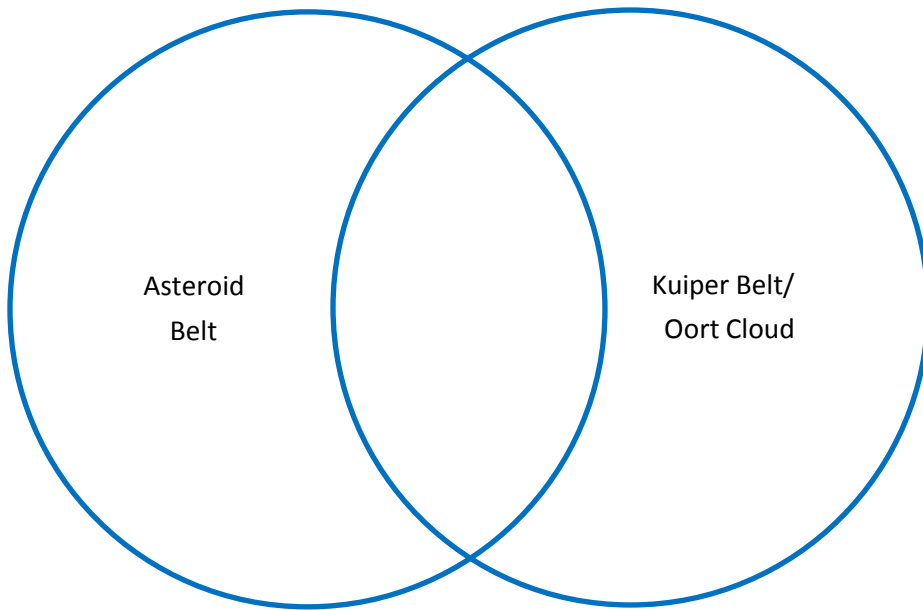

View the "Asteroids" and "Comets" Brain Pop videos. Compare/contrast both objects.

Read page 480 in the Blue Holt Textbook. Directions: Write a "Claim, Evidence, Reasoning" to identify what you think our beloved Pluto should be classified as. Be sure to use evidence from the book (source) to support your claim. Use the back for more room if you need it.

Claim: _____

Evidence: _____

Reasoning: _____

Compare/contrast: Location in Solar System, Composition, Origin, Orbit around Sun, etc..
